

The Journey through Time Tour

July 8 - 11, 2018 – John Day, Oregon

The Portland Regional Group invites you to a very special part of Oregon for our 2018 Annual Tour. This is a completely new location for our club in our 53 years of antique car tours.

The John Day area in central Oregon offers a remarkable combination of both history and scenery. You'll get to visit ghost towns, a world-class natural history center, and cultural museums, all while driving through some of Oregon's most beautiful landscapes.

Tour days will average 75 miles, with only one day topping 100. Attractions will include the early gold mining town of Sumpter, where you can explore the gold dredge remaining from the gold rush that started in 1862. Another day, we will visit the Thomas Condon Paleontology Center, where we'll see the kind of residents that inhabited Oregon millions of years ago. Historic museums include the James Cant Ranch, a well-preserved example of life in the area in the early

1900's, as well as the Kam Wah Chung State Heritage Site, highlighting the contributions of 19th century Chinese immigrants. Three tour days also include stops in some of Oregon's famous ghost towns. Be sure to bring your best camera!

Details of the tour are being finalized now. Be sure to send in or email your application soon to reserve your spot. We hope to see you in John Day for the Journey through Time Tour!
